

Vacancy

DCM CNC Turner / Lathe Operator x 2

Back Shift

We are a manufacturer of orthopedic components/materials manufactured to high specifications for the medical industry. Our main focus is to supplying high quality medical products to exacting customer and international specifications, supported by our technical department which is capable of testing polymeric materials to the highest standards. In order to support continued business growth we require highly motivated individuals to join the Direct Compression Moulding Department.

KEY ACCOUNTABLE AREAS:

- Machining high quality, close tolerance replacement prosthetics components
- Utilising Cad/Cam programmes
- Sets up and operate lathe in accordance with established procedures and guidelines
- Lathe turning operations and executing quality control systems
- Maintaining high operating equipment efficiency levels
- Remove parts from lathe after specified times
- Conducting physical and visual checks on medical components, rejecting and returning unacceptable materials/parts
- Ensure health and safety standards are adhered to
- Ensure that all products are thoroughly quality checked
- Provide technical support and training to apprentices

THIS EXCITING POSITION REQUIRES A PERSON WHO IS:

- Methodical and meticulous in approach
- An effective communicator and a good team player
- Conscientious and has a self-disciplined approach
- Motivated and flexible in their approach
- Ability to self-manage as well as working as part of a team
- Excellent time management and multi-tasking skills
- Capable of producing high quality written material by hand
- Computer literate

REQUIRED QUALIFICATIONS/KNOWLEDGE:

- 3 GCSE Grade C or above or equivalent qualifications

EXPERIENCE

- Previous experience in a semi-skilled manufacturing role

HOURS OF EMPLOYMENT

- Back Shift: 14.00 to 22.00 Monday to Friday which includes breaks
- Due to the nature of the work, you may be expected to be flexible with regards to working hours and breaks to enable the best efficiency and utilisation during the daily period
- Duties and hours may vary dependent upon workload
