

Vacancy

Junior Laboratory Technician

We are a manufacturer of orthopedic components and materials manufactured to high specifications for the medical industry. Our main focus is to supplying high quality medical products to exacting customer and international specifications, supported by our Technical Department which is capable of testing polymeric materials to the highest standards. In order to support continued business growth we require an enthusiastic individual to join our business to work within our Laboratory facility.

KEY ACCOUNTABLE AREAS:

- Undertake routine batch testing to Customer and International Specifications and Standards whilst maintaining working practices in accordance with ISO 17025
- To carry out physical/mechanical and chemical analysis to customer specifications and International standards
- To assist in the smooth and safe functioning of the Technical Department activities, incorporating the Laboratory and Quality Assurance
- The development and daily operations of the Technical Laboratory in conjunction with the Manufacturing Department
- Ensuring that the laboratory is kept clean, tidy and safe at all times
- Maintaining the good documentation and good laboratory practices and working with QA in a support capacity
- Assisting with Technical Projects, Research and Development, continuous improvement of manufacturing facilities and contract testing
- Complete any documentation or activities associated with the Company Validation Procedures
- Ensure all Health & Safety procedures and practices are adhered to within the department

THIS EXCITING POSITION REQUIRES A PERSON WHO IS:

- Methodical and meticulous in approach
- Interested in Physical/Mechanical and Chemical testing of polymeric products
- Capable of producing high quality written material by hand and using computers
- An effective communicator and a good team player
- Motivated and flexible in their approach
- Excellent at time management and multi-tasking
- Conscientious and has a self-disciplined approach

REQUIRED QUALIFICATIONS/KNOWLEDGE:

- A levels in relevant subjects (to include Mathematics, English and one Science subject) or equivalent qualifications
- Computer literate (Microsoft Word & Excel)
- Previous experience working within a laboratory or similar role (beneficial)
- In house training, relevant to the role will be provided

HOURS OF EMPLOYMENT

- Monday to Thursday 8.30 – 5.00, Friday 8.30-1.30 (35 hour working week), which includes breaks.
- Duties and hours may vary dependent upon workload

Please forward your CV & salary expectations to Tandy Kehoe, HR Manager by email: kehoe@orthoplastics.com

We will be reviewing all applications on an ongoing basis and candidates may be asked to attend an interview during this time.
